DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 17-20 are finally rejected under 35 U.S.C. 103(a) as being unpatentable over Clemenson, as set forth in previous Office Action.

Allowable Subject Matter

Claims 1-16 are allowed.

Response to Arguments

Applicant's arguments filed 11/09/05 have been fully considered but they are not persuasive. In response to Applicant's remarks that duplication of parts would not have been obvious in view of Clemenson, the Examiner disagrees. The Examiner takes the position that Clemenson teaches a cutting head 16b that can function as an additional cutter to carbide tip 16f when cutting a stump; therefore, it would have been obvious to include an additional cutter insert. Additionally, it is well known in the prior art to use more than one cutter insert to cut work piece such as wood, plastic, metal, etc. Further, Applicant has not provided a criticality for an additional cutter.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
